Band concerts and dances, scheduled for last evening, were, in the great part, postponed and the theatres profited proportionately.

### The Theater

#### "HONEYMOONERS," LAST ORPHEUM TEAL BILL

For its closing bill, the Raymond Teal company will present another new play entitled "The Honeymooners." This play should not be confused with one presented when the company played at the Central in Lowell, entitled "The Honeymoon Trail." There is a great deal of difference between the two. Tonight was to have been the closing night for the company but the season will be extended one more night closing on Monday instead. The same play will be presented both nights.

"The Honeymooners" like all of the Teal plays abounds in funny situations, lots of song and dance numbers as well as specialties. Those attending can be assured of an evening of real pleasure. Reserved seats are now on sale at the Orpheum box office.

#### "A WOMAN'S POWER."

"A Woman's Power" is a tale of regeneration and good growing out of what seems a morass of evil. Like a shining rainbow Minerva's great love guides Newt to a better, nobler life and the abandonment of his oath of revenge. Newt's determination to kill Henry Falkins, who has denounced Newt and sent him to prison grows deeper rooted with the years. It seems that the red-branded hatred in his mind has seared his impression upon every fiber of his being. And then Minerva enters his life. The change in Newt's nature does not come in a flash. Despite the influence of the girl he loves, he still cherishes his hatred.

Fate throws the two men together in the Philippines. Amidst battle and bloodshed the vision of Minerva follows Newt like a spirit of betterment. His opportunity to slay Henry Falkins occurs; but the influence of Minerva reaches out even across miles of salt ocean, stays his hand at the eleventh hour. How Newt's final stance on the upward path he has set himself to follow is reached, is depicted in a scene of trenchant power and climatic strength.

### TORRENTIAL RAINS HIT EXPEDITION

Pershing Force Unhandicapped, However, Hears Villistas Nearby

(By Review Leased Wire.) COLUMBUS, N. M., July 8.—Torrential rains fell over the Santa Maria River valley, in which the American expeditionary command is encamped today and continued tonight. The rains hampered transportation over the motor supply trail from Columbus to the field, great pools of slippery, alkaline mud forming in the ruts which had been filled with powdered dust.

However, with the supplies concentrated at the field base, no apprehension would handicap General Pershing's command. Despite the weather conditions many truck loads of alfalfa, grain and other forage was started south across the border from here today.

Reports from the field tonight indicated that small bands of Villistas have been seen below General Pershing's lines recently.
